Fifth Grade Social Studies is a basic overview of the United States from the Civil War to its emergence as a superpower. Students recognize and evaluate the significance of major events of each historical period. Students examine primary source documents relating to events and policies of the late 19th and early 20th centuries. They continue to learn the role of citizenship and social responsibility in the community, state, nation, and world. Students examine the transformation from rural to urban and from agricultural to industrial, focusing on the economic impact of these moves.
